Ave Victoria!. rep Fallen

+rep Taz. To put it simple, this game is a mindless kind've fun. Just launch the game, blast a whole lot of baddies and collect all 40 achievements. It is no masterpiece of course, but for a budget priced game, you get a good amount of value out of your money. The only issue I have with it is the scoring system. One of the bonus levels make it virtually impossible to lose, and I was racking up points for over 15 minutes..but after you hit the max points, your score resets into the negatives. This happened at least 3 times throughout that level and ruined the fun of the scoring system for the rest of the game. Overall Recommended though ^_^ . Boring. No challenge at all, its barely a game.. Disclaimer; I paid \$2 for this while it was on sale, so my review can't really take price into account.

Pros;

- Short and to the point
- Interesting mechanics
- Aesthetics are similar to Papers, Please
- Replayability is high

Cons;

- Short; too short for some, lasting only 30-45 minutes per playthrough
- Very little feedback; your actions have direct consequences, but cause and effect are painfully vague
- Lack of depth; despite high replayability, each playthrough won't differ by much, mostly changing only the endings you receive

Conclusion;

- Buy it cheap and don't expect it to be as good as Papers and you'll be golden.. The flight center I'm taking my flight lessons from uses PA28s (granted, they're the 161, not the 180), so I figured this would be pretty helpful as a personal training tool. I've been flying the things for just under 2 and a half years, and from what I can tell so far, the flight model on this is pretty faithful to the real thing. The panel layout also feels very familiar, with only a few differences (I can chalk that up to it beign a different model though). The only real problem I've noticed is that the turn coordinator tends to go a little nuts when you bank even slightly. I dip the wings into a standard rate turn, and the indicator shows the plane practically going knife-edge. Overall though, it's pretty solid, and works really well as a training tool.. I really liked this game. Yeah it is short, but it is interesting and different. The idea is very itresting and sad showing a deep and pleasurable experience that shows in some ways the plight of the Irish and celts in general. Can't wait for part 2 and considering this game is 5 dollars why haven't you bought it.
